SUBJECT INDEX

Abducens injury
Atlanto-occipital dislocation: a report of three patients and a review (case report), 370
Above-knee amputees
Long-term follow-up of unilateral above-knee amputees (abstract), 140
Abrasions, superficial
Evaluation of standard surgical preparation performed on superficial dermal abrasions, 206
Absorptiometry, dual-energy X-ray
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Accidental injury, pediatric
The epidemiology of accidental and non-accidental femur fractures in children (abstract), 124
Acetabulum
Superior gluteal artery in the extended iliofemoral approach, 259
Acetabulum, fractures
Acetabular fractures (letter), 377
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
Iatrogenic nerve injury during acetabular fracture surgery: a comparison of monitored and unmonitored patients (abstract), 145
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Nonoperative treatment of acetabular fractures, 589
Nonoperative treatment of fractures of the acetabulum (abstract), 148
Operative treatment of complex acetabular fractures through the modified extensile iliofemoral approach (Maryland) (abstract), 223
Acetabulum, posttraumatic dysplasia
Pathomorphologic characteristics of posttraumatic acetabular dysplasia, 483
Acetabulum, retroversion
Pathomorphologic characteristics of posttraumatic acetabular dysplasia, 483
Achilles tendon, defect coverage
The deepithelialized turn-over-flap for defect coverage over the Achilles tendon and the lateral malleolar region (abstract), 453
Adult respiratory distress syndrome
The effect of femoral nailing on the inflammatory system: is there a second hit? (abstract), 125
Age
Age, gender, work capability and Worker's Compensation in patients with displaced intra-articular calcaneal fractures (abstract), 141
Air rescue
Facts about the disaster at Eschede, 287
Algoneurodystrophy
The importance of algoneurodystrophy in different treatment options of distal radial fractures (abstract), 122
Alkaline phosphatase
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Ambulance personnel
Facts about the disaster at Eschede, 287
Amputation, lower extremity
Characterization of patients with high-energy lower extremity trauma, 455
Long-term follow-up of unilateral above-knee amputees (abstract), 140
Amputation, pediatric
Major pediatric hand trauma associated with fireworks, 426
Anatomic safe zone
Tibial portal placement: the radiographic correlate of the anatomic safe zone (abstract), 150
Anatomy, sacral ala
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Aneurysm, posttraumatic
Posttraumatic aneurysm of the brachiocephalic trunk: a rare injury (abstract), 73
Angiogenesis
Is human fracture hematoma inherently angiogenic? (abstract), 126
Angiography
Superior gluteal artery in the extended iliofemoral approach, 259
Angulation, tibial fracture
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Animal models
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Evaluation of intraoperative nerve monitoring during the insertion of iliosacral implants in an animal model (abstract), 146
Feasibility of a gene therapy approach for the treatment of an atrophic non-union: an experimental study in rabbits (abstract), 128
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Models in fracture healing: report from the Reisensburg Workshop September 1999, 440
Recombinant growth hormone accelerates the healing of segmental bone defects: an animal study in minipigs (abstract), 129
Sheep model for fracture treatment in osteoporotic bone: a pilot study about different induction regimens, 559
Ankle, fractures
Ankle fracture with syndesmotic injury, 113
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
Evaluation of the syndesmotic screw in low Weber C ankle fractures, 359
Treatment of the rupture of the distal tibiofibular syndesmosis with "Engelbrechts syndesmosis hook" (abstract), 73
Ankle, injury
Foot and ankle injury mechanisms in frontal car collisions (abstract), 144
Ankle, surgical approaches
Böhler incision: an extensile anterolateral approach to the foot and ankle, 429
Antegrade femoral nail
Prospective comparison of retrograde and antegrade femoral intramedullary nailing, 496
Antegrade nailing, femoral
Antegrade *vs.* retrograde femoral nailing: a comparison of canal-sized implants (abstract), 132
Antegrade nailing, interlocked
Unreamed antegrade interlocked humeral nailing (abstract), 453
Antibiotics
Effect of commonly used locally applied antibiotics on human fibroblast, lymphocyte-like, and osteoblast-like cells in-vitro (abstract), 128
Prospective, randomized, double-blind study comparing single-agent antibiotic therapy, ciprofloxacin, to combination antibiotic therapy in open fracture wounds, 529
The use of an antibiotic-impregnated, bioabsorbable bone substitute in the treatment of infected long bone defects: results of a prospective trial (abstract), 137
Antibiotics, combination
Prospective, randomized, double-blind study comparing single-agent antibiotic therapy, ciprofloxacin, to combination antibiotic therapy in open fracture wounds, 529
AO documentation
Evaluation criteria list for trauma outcome: recommended by AO/ASIF, 292
AO malleolar screws
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
AO nails
Dislodgement of the locking cap from the AO unreamed intramedullary nail: a case report, 105
AO/OTA fracture classification
Outcome validation of the AO/OTA fracture classification system, 534
Arthrodesis
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 74, 223

Arthroscopy
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299
Arthrotomy
Comparison of magnetic resonance imaging with operative findings in acute traumatic dislocations of the adult knee, 183
Atlanto-occipital dislocation
Atlanto-occipital dislocation: a report of three patients and a review (case report), 370
Augmentation, cement
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Avascular necrosis
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Axis alignment
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41

Bacterial pathogens
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140
Bandage scissors
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140
Bioabsorbable bone substitute
The use of an antibiotic-impregnated, bioabsorbable bone substitute in the treatment of infected long bone defects: results of a prospective trial (abstract), 137
Biodegradable implants
Biodegradable implants for fracture fixation, state of the art (abstract), 451
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Biomaterials
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Biomechanics
A biomechanical analysis of fixation constructs in high angle femoral neck fractures (abstract), 131
Biomechanical consequences of excision of displaced Pipkin femoral head fractures (abstract), 149
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Biomechanical evaluation of syndesmosis fixation with 3.5- and 4.5-millimeter stainless steel screws (abstract), 144
Biomechanical evaluation of the dynamic hip screw with two- and four-hole side plates, 318
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
Fixation of three-part proximal humeral fractures: a biomechanical evaluation, 36
Fractures of the olecranon: a biomechanical study of the joint stresses comparing two methods of treatment (abstract), 119
Insertion force measurement of cervical traction tongs: a biomechanical study, 505
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Blast injury
Field hospital treatment of blast wounds of the musculoskeletal system during the Yugoslav civil war, 278
Major pediatric hand trauma associated with fireworks, 426
Blood contamination, trauma centers
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140
Blood flow, bone
Acute compartment syndrome: its effect on bone blood flow and bone union (abstract), 153
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Blunt trauma
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Blunt trauma, chest
Posttraumatic aneurysm of the brachiocephalic trunk: a rare injury (abstract), 73
Blunt trauma, soft tissue
Compartment syndrome of the thigh with sciatic nerve palsy (abstract), 451
Böhler incision
Böhler incision: an extensile anterolateral approach to the foot and ankle, 429
Bone blood flow
Acute compartment syndrome: its effect on bone blood flow and bone union (abstract), 153
Bone cement
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Bone defects
Ilizarov bone transport treatment for tibial defects, 76
Bone deficit
Correction of complex post-traumatic periarticular tibial deformities with bone deficit utilizing the Ilizarov technique (abstract), 138
Bone grafting
Bone graft in the operative treatment of displaced intra-articular calcaneal fractures: is it helpful? (abstract), 142
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
Reconstruction of post-traumatic long bone defect with vascularized bone graft (abstract), 138
Bone healing
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Fracture healing is modulated by nitric oxide (abstract), 127
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Low-intensity ultrasound and healing of intramedullary fixed tibial fractures (abstract), 154
A prospective randomized trial comparing reamed and unreamed intramedullary nailing: an analysis of rates of union (abstract), 131
Recombinant growth hormone accelerates the healing of segmental bone defects: an animal study in minipigs (abstract), 129
Bone infection
The use of an antibiotic-impregnated, bioabsorbable bone substitute in the treatment of infected long bone defects: results of a prospective trial (abstract), 137
Bone mass quantification
Commentary, 565
Bone mineral density
Changes in bone mineral density six years following a hip fracture: a prospective longitudinal study (abstract), 136
Bone repair
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Bone-specific alkaline phosphatase
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Bone strain
Bone strain changes associated with intraarticular fractures of the proximal and distal tibia (abstract), 139
Bone substitute
The use of an antibiotic-impregnated, bioabsorbable bone substitute in the treatment of infected long bone defects: results of a prospective trial (abstract), 137
Bone transport
Ilizarov bone transport treatment for tibial defects, 76
Bone union
Acute compartment syndrome: its effect on bone blood flow and bone union (abstract), 153
Borderline patient
Optimal duration of primary surgery with regards to a "borderline" situation in polytrauma patients (abstract), 74, 223
Brachiocephalic trunk, injury
Posttraumatic aneurysm of the brachiocephalic trunk: a rare injury (abstract), 73
Bracing, tibial
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Isolated tibial shaft fracture, 306
Tibial bracing (letter), 523
Burn injury
Acute noncontact compartment syndrome (case report), 509

C-clamp
Control of severe hemorrhage in multiply injured patients with pelvic ring disruption using C-clamp and pelvic packing (abstract), 147
Cadaver bone, intramedullary nailing
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Calcaneus, fractures
Age, gender, work capability and Worker's Compensation in patients with displaced intra-articular calcaneal fractures (abstract), 141
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
The natural history and treatment of open calcaneal fractures (abstract), 141
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Calcaneus, intraarticular fractures
Bone graft in the operative treatment of displaced intra-articular calcaneal fractures: is it helpful? (abstract), 142
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
Calcium phosphate cement
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Capital femoral epiphysis
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Salter-Harris Type II fractures of the capital femoral epiphysis (case report), 510

Cardiac output
Cardiac output during hip hemiarthroplasty: a prospective, controlled trial of cemented and uncemented designs (abstract), 136
Cast immobilization
Cast immobilisation or vacuum stabilizing system? (abstract), 451
Catastrophe
Civilian catastrophe and wartime surgery: frequently neglected by always threatening aspects of trauma surgery, 277
Facts about the disaster at Eschede, 287
Cement-augmented fixation
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Cemented hemiarthroplasty
Cardiac output during hip hemiarthroplasty: a prospective, controlled trial of cemented and uncemented designs (abstract), 136
Cerebrovascular accidents
Effect of previous cerebrovascular accident on outcome after hip fracture, 329
Cervical spine
Fluoroscopic evaluation of the cervical spine in the polytrauma patient (abstract), 124
Cervical traction tongs
Insertion force measurement of cervical traction tongs: a biomechanical study, 505
Chest trauma, blunt
Posttraumatic aneurysm of the brachiocephalic trunk: a rare injury (abstract), 73
Child abuse, fractures
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Ciprofloxacin
Prospective, randomized, double-blind study comparing single-agent antibiotic therapy, ciprofloxacin, to combination antibiotic therapy in open fracture wounds, 529
Circular wire fixation
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Treatment of complex (Schatzker Type VI) fractures of the tibial plateau with circular wire external fixation: retrospective case review, 339
Classification, fracture assessment
Radiographic fracture assessments: which ones can we reliably make?, 379
Clavicle, fractures
Open reduction and anterior-inferior plating of middle-third fractures and nonunions of the clavicle (abstract), 117
Operative fixation of high-energy displaced midshaft clavicle fractures (abstract), 116
Cleaning guidelines, trauma centers
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140
Clinical analysis
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546
Clinical data
Striving for statistical significance: how important is it? (editorial), 227
Clinical trial
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74, 223
Prospective clinical trial of the less invasive stabilization (L.I.S.S.) for supracondylar femur fractures (abstract), 133
Closed reduction
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
Coated screws
Flexor surface material (letter), 376
Cohort study
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74, 223
High-grade tibial plateau fractures: a matched cohort study comparing internal fixation and ring fixator methods (abstract), 153
Collagen I C-terminal telopeptide
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Colles fracture
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Comminuted fractures
Comminuted fractures of the iliac wing, 270
Comminuted fractures, intraarticular
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Compartment pressure
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157
Compartment syndrome
Acute compartment syndrome: its effect on bone blood flow and bone union (abstract), 153
Acute noncontact compartment syndrome (case report), 509
Compartment syndrome of the thigh with sciatic nerve palsy (abstract), 451
Complications
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
Retained broken wound drains: a preventable complication, 212
Complications, intraoperative
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Compression injury, pelvic
Posterior locked lateral compression injury of the pelvis: report of three cases, 107
Compression pelvic fractures
Distraction external fixation in lateral compression pelvic fractures, 475
Compression plating
Percutaneous compression plating of intertrochanteric hip fractures, 490
Computed tomography
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Computer models
Models in fracture healing: report from the Reisensburg Workshop September 1999, 440
Conservative treatment
Operative versus conservative treatment of fractures of the thoracolumbar spine (abstract), 452
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73
Continuous pressure monitoring
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157
Controversial topics
Case controversies, 112
A controversial issue, 75
Coronal fracture, treatment
Gerdy's tubercle osteotomy for the treatment of coronal fractures of the lateral femoral condyle, 214
Cortical bone, reamer design
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Critical threshold, sciatic nerve pressure
Intraneural sciatic nerve pressures relative to the position of the hip and knee: a human cadaveric study, 255
Cross-sectional geometry
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Crush injury
Acute noncontact compartment syndrome (case report), 509
Crush syndrome
Crush syndrome after proximal femoral fracture (abstract), 135

DASH form
Assessment of outcome following intraarticular distal humerus fractures using the DASH form (abstract), 118
Deep vein thrombosis
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Deepithelialized turn-over-flap
The deepithelialized turn-over-flap for defect coverage over the Achilles tendon and the lateral malleolar region (abstract), 453
Deformity, rotational
The clinical relevance of the rotational deformity after femoral shaft fracture treated with intramedullary nailing (abstract), 133
Degloving
Comminuted fractures of the iliac wing, 270
Delayed separation
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Delayed union
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74, 223
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Densitometric methods
Commentary, 565
Dermal abrasions
Evaluation of standard surgical preparation performed on superficial dermal abrasions, 206
Diaphyseal fracture
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
Disaster medicine
Facts about the disaster at Eschede, 287
Disinfection procedures
The influence of different disinfection and sterilisation procedures on osteoblastic function. A comparative in-vitro study (abstract), 453
Dislocation
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517
Nerve injury after greater tuberosity fracture dislocation (abstract), 117
Dislocation, atlanto-occipital
Atlanto-occipital dislocation: a report of three patients and a review (case report), 370

Dislocation, elbow
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Results of acute excision of the radial head in elbow radial head fracture-dislocations, 354
Unstable elbow dislocations and fracture-dislocations: temporary transarticular fixation (abstract), 120
Dislocation, femoral head
Biomechanical consequences of excision of displaced Pipkin femoral head fractures (abstract), 149
Dislocation, hip
Internal fixation *vs.* primary total hip arthroplasty for dislocated femoral neck fractures: a prospective randomized study (abstract), 134
Dislocation, intraarticular calcaneal
Age, gender, work capability and Worker's Compensation in patients with displaced intra-articular calcaneal fractures (abstract), 141
Bone graft in the operative treatment of displaced intra-articular calcaneal fractures: is it helpful? (abstract), 142
Dislocation, knee
Comparison of magnetic resonance imaging with operative findings in acute traumatic dislocations of the adult knee, 183
A rare case of irreducible knee dislocation in a seventy-three-year-old male, 70
Ultra-low velocity knee dislocations (abstract), 153
Dislocation-fracture
Late results after fracture of the femoral head (abstract), 73
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299
Displaced fracture, humeral
Displaced supracondylar humeral fractures in children: does the timing of surgery make a difference? (abstract), 123
Distraction external fixation
Distraction external fixation in lateral compression pelvic fractures, 475
Distraction osteogenesis
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
Dual-energy X-ray absorptiometry
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571

Elbow, dislocation-fracture
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Results of acute excision of the radial head in elbow radial head fracture-dislocations, 354
Unstable elbow dislocations and fracture-dislocations: temporary transarticular fixation (abstract), 120
Elbow, fixation
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41
Elbow, instability
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442
Elbow, kinematics
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41
Elderly, hip fracture
A functional recovery score for elderly hip fracture patients: I. Development, 20
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Joint proprioception in the elderly with and without hip fracture, 542
Electromagnetic fields
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Electromyography
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Emergency physician, leading
Facts about the disaster at Eschede, 287
Epidemiology
The epidemiology and outcome of proximal humeral fractures (abstract), 118
The epidemiology of accidental and non-accidental femur fractures in children (abstract), 124
Epidemiology of the severe multiple trauma - a prospective registration of preclinical and clinical supply (abstract), 453
Epiphyseal fracture, bilateral
Bilateral epiphyseal fractures of the proximal tibia within a six-month interval: a case report (case report), 585
Epiphyseal separation, delayed
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Epiphysis, Salter-Harris I injury
Flexion-type Salter-Harris I injury of the proximal tibial epiphysis (case report), 302
Etiology, fracture
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Evaluation criteria
Evaluation criteria list for trauma outcome: recommended by AO/ASIF, 292
Evaluation criteria list for trauma outcome (editorial), 291
Evoked potentials
Somatosensory evoked potential monitoring during closed humeral nailing: a preliminary report, 167
Exchange nailing
Exchange nailing for femoral nonunion (letter), 522
Exchange nailing, reamed intramedullary
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Excision, femoral head
Biomechanical consequences of excision of displaced Pipkin femoral head fractures (abstract), 149
Excision, radial head
Results of acute excision of the radial head in elbow radial head fracture-dislocations, 354
Extensile approaches
Böhler incision: an extensile anterolateral approach to the foot and ankle, 429
Operative treatment of complex acetabular fractures through the modified extensile iliofemoral approach (Maryland) (abstract), 223
External fixation
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41
Nonunion in a fracture of the proximal phalanx of the thumb (case report), 219
Pediatric femur fracture, 449
A rare case of irreducible knee dislocation in a seventy-three-year-old male, 70
External fixation, circular wire
Treatment of complex (Schatzker Type VI) fractures of the tibial plateau with circular wire external fixation: retrospective case review, 339
External fixation, distraction
Distraction external fixation in lateral compression pelvic fractures, 475
External fixation, hybrid
Tension wire position for hybrid external fixation of the proximal tibia, 502
External fixation, tensioned wire
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
External fixators
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Perioperative external fixator management during secondary surgical procedures (abstract), 150
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442
Extracorporeal shock wave therapy
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74, 223
Extremities, blast injury
Field hospital treatment of blast wounds of the musculoskeletal system during the Yugoslav civil war, 278

Failure load
Insertion force measurement of cervical traction tongs: a biomechanical study, 505
Falls, elderly
Joint proprioception in the elderly with and without hip fracture, 542
Fat embolism
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Femoral canal cementation
Cardiac output during hip hemiarthroplasty: a prospective, controlled trial of cemented and uncemented designs (abstract), 136
Femoral condyle, fractures
Gerdy's tubercle osteotomy for the treatment of coronal fractures of the lateral femoral condyle, 214
Nonunion of a Hoffa fracture in a child (case report), 519
Femoral head, fracture
Late results after fracture of the femoral head (abstract), 73
Femoral head, fractures
Biomechanical consequences of excision of displaced Pipkin femoral head fractures (abstract), 149
Femoral nailing
The effect of femoral nailing on the inflammatory system: is there a second hit? (abstract), 125
Reamed versus nonreamed anterograde femoral nailing, 15
Femoral nailing, antegrade
Antegrade *vs.* retrograde femoral nailing: a comparison of canal-sized implants (abstract), 132
Femoral nailing, prophylactic
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Femoral nailing, retrograde
Antegrade *vs.* retrograde femoral nailing: a comparison of canal-sized implants (abstract), 132
Femoral nailing, unreamed
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Femoral neck, fractures
A biomechanical analysis of fixation constructs in high angle femoral neck fractures (abstract), 131
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Outcomes of acute femoral neck fractures in young patients (abstract), 130
Unipolar *vs.* bipolar prosthesis: a prospective evaluation of long-term functional outcome following femoral neck fracture (abstract), 135
Femoral shaft, delayed union
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Femoral shaft, fractures
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571

The clinical relevance of the rotational deformity after femoral shaft fracture treated with intramedullary nailing (abstract), 133
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Reamed versus nonreamed anterograde femoral nailing, 15
Treatment of femoral shaft fracture using unreamed interlocked nails, 10

Femoral shaft, nonunion
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178

Femur, coated screws
Flexor surface material (letter), 376

Femur, distal side plate
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398

Femur, fractures
Bilateral peroneal nerve injuries in a patient with bilateral femur fractures: a case report (case reports), 216
Compartment syndrome of the thigh with sciatic nerve palsy (abstract), 451
Crush syndrome after proximal femoral fracture (abstract), 135
The epidemiology of accidental and nonaccidental femur fractures in children (abstract), 124
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Pediatric femur fracture, 449
Prospective clinical trial of the less invasive stabilization (L.I.S.S.) for supracondylar femur fractures (abstract), 133
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Retrograde nailing of femoral fractures distal to previous osteosynthesis, 367
Reverse obliquity fractures of the proximal femur (abstract), 137
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Timing of femur fracture fixation in patients with head injuries (abstract), 125
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Treatment of femoral shaft fracture using unreamed interlocked nails, 10

Femur, metastatic lesions
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394

Femur, modular prosthesis
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546

Femur, nailing
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Prospective comparison of retrograde and antegrade femoral intramedullary nailing, 496

Femur, nonunion
Exchange nailing for femoral nonunion (letter), 522

Field hospitals
Field hospital treatment of blast wounds of the musculoskeletal system during the Yugoslav civil war, 278

Finite element analysis
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546

Fireworks, hand trauma
Major pediatric hand trauma associated with fireworks, 426

Fixation
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
Fixation of three-part proximal humeral fractures: a biomechanical evaluation, 36
Ilizarov bone transport treatment for tibial defects, 76
Operative fixation of high-energy displaced midshaft clavicle fractures (abstract), 116
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157

Fixation, biodegradable
Biodegradable implants for fracture fixation, state of the art (abstract), 451

Fixation, biomechanics
A biomechanical analysis of fixation constructs in high angle femoral neck fractures (abstract), 131

Fixation, cement-augmented
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386

Fixation, elbow
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41

Fixation, external
Distraction external fixation in lateral compression pelvic fractures, 475
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Nonunion in a fracture of the proximal phalanx of the thumb (case report), 219
Pediatric femur fracture, 449
A rare case of irreducible knee dislocation in a seventy-three-year-old male, 70
Treatment of complex (Schatzker Type VI) fractures of the tibial plateaus with circular wire external fixation: retrospective case review, 339
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442

Fixation, hip
Percutaneous compression plating of intertrochanteric hip fractures, 490

Fixation, humeral shaft
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162

Fixation, hybrid
Tension wire position for hybrid external fixation of the proximal tibia, 502

Fixation, internal
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
High-grade tibial plateau fractures: a matched cohort study comparing internal fixation and ring fixator methods (abstract), 153
Internal fixation *vs.* primary total hip arthroplasty for dislocated femoral neck fractures: a prospective randomized study (abstract), 134
Nonunion following ORIF of radial head fractures (abstract), 119
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Treatment of tibial plateau fractures with small fragment internal fixation: a preliminary report, 467

Fixation, intramedullary
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Pediatric femur fracture, 449
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162

Fixation, syndesmosis
Biomechanical evaluation of syndesmosis fixation with 3.5- and 4.5-millimeter stainless steel screws (abstract), 144

Fixation, timing
Timing of femur fracture fixation in patients with head injuries (abstract), 125

Fixation, transarticular
Unstable elbow dislocations and fracture-dislocations: temporary transarticular fixation (abstract), 120

Fixation, unreamed
Unreamed antegrade interlocked humeral nailing (abstract), 453

Fixator, alignment
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41

Fixator, external
Perioperative external fixator management during secondary surgical procedures (abstract), 150

Flap design
The deepithelialized turn-over-flap for defect coverage over the Achilles tendon and the lateral malleolar region (abstract), 453

Flexion-type Salter-Harris I injury
Flexion-type Salter-Harris I injury of the proximal tibial epiphysis (case report), 302

Flexor surface material
Flexor surface material (letter), 376

Floating radial head prosthesis
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171

Fluoroscopic evaluation
Fluoroscopic evaluation of the cervical spine in the polytrauma patient (abstract), 124
Intraoperative fluoroscopy (letter), 225

Follow-up
The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Long-term follow-up of unilateral above-knee amputees (abstract), 140
Operative treatment of complex acetabular fractures through the modified extensile iliofemoral approach (Maryland) (abstract), 223

Foot, injury
Foot and ankle injury mechanisms in frontal car collisions (abstract), 144

Foot, surgical approaches
Böhler incision: an extensile anterolateral approach to the foot and ankle, 429

Footwear, protective
Change in lower extremity morbidity from landmine injury: an analysis of new protective footwear (abstract), 145

Forearm, fractures
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73

Forearm, rotation
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73

Fracture-dislocation, elbow
Results of acute excision of the radial head in elbow radial head fracture-dislocations, 354
Unstable elbow dislocations and fracture-dislocations: temporary transarticular fixation (abstract), 120
Fracture-dislocation, femoral neck
Internal fixation *vs.* primary total hip arthroplasty for dislocated femoral neck fractures: a prospective randomized study (abstract), 134
Fracture-dislocation, Galeazzi
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Fracture-dislocation, greater tuberosity
Nerve injury after greater tuberosity fracture dislocation (abstract), 117
Fractures
Superior gluteal artery in the extended iliofemoral approach, 259
Fractures, acetabular
Acetabular fractures (letter), 377
Iatrogenic nerve injury during acetabular fracture surgery: a comparison of monitored and unmonitored patients (abstract), 145
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Nonoperative treatment of acetabular fractures, 589
Nonoperative treatment of fractures of the acetabulum (abstract), 148
Operative treatment of complex acetabular fractures through the modified extensile iliofemoral approach (Maryland) (abstract), 223
Fractures, ankle
Ankle fracture with syndesmotic injury, 113
Treatment of the rupture of the distal tibiofibular syndesmosis with "Engelbrechts syndesmosis hook" (abstract), 73
Fractures, calcaneal
Age, gender, work capability and Worker's Compensation in patients with displaced intra-articular calcaneal fractures (abstract), 141
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
The natural history and treatment of open calcaneal fractures (abstract), 141
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Fractures, classification
Outcome validation of the AO/OTA fracture classification system, 534
Fractures, clavicle
Open reduction and anterior-inferior plating of middle-third fractures and nonunions of the clavicle (abstract), 117
Operative fixation of high-energy displaced midshaft clavicle fractures (abstract), 116
Fractures, Colles
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Fractures, coronal
Gerdy's tubercle osteotomy for the treatment of coronal fractures of the lateral femoral condyle, 214
Fractures, delayed union
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74
Fractures, epiphyseal
Bilateral epiphyseal fractures of the proximal tibia within a six-month interval: a case report (case report), 585
Fractures, femoral
Bilateral peroneal nerve injuries in a patient with bilateral femur fractures: a case report (case reports), 216
Compartment syndrome of the thigh with sciatic nerve palsy (abstract), 451
Crush syndrome after proximal femoral fracture (abstract), 135
The epidemiology of accidental and non-accidental femur fractures in children (abstract), 124
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Pediatric femur fracture, 449
Reamed versus nonreamed anterograde femoral nailing, 15
Retrograde nailing of femoral fractures distal to previous osteosynthesis, 367
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Timing of femur fracture fixation in patients with head injuries (abstract), 125
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Fractures, femoral head
Biomechanical consequences of excision of displaced Pipkin femoral head fractures (abstract), 149
Late results after fracture of the femoral head (abstract), 73
Fractures, femoral neck
A biomechanical analysis of fixation constructs in high angle femoral neck fractures (abstract), 131
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Outcomes of acute femoral neck fractures in young patients (abstract), 130
Unipolar *vs.* bipolar prosthesis: a prospective evaluation of long-term functional outcome following femoral neck fracture (abstract), 135
Fractures, femoral shaft
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
The clinical relevance of the rotational deformity after femoral shaft fracture treated with intramedullary nailing (abstract), 133
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Treatment of femoral shaft fracture using unreamed interlocked nails, 10
Fractures, fixation
Biodegradable implants for fracture fixation, state of the art (abstract), 451
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Operative fixation of high-energy displaced midshaft clavicle fractures (abstract), 116
Percutaneous compression plating of intertrochanteric hip fractures, 490
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157
Fractures, forearm
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73
Fractures, healing
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Fracture healing is modulated by nitric oxide (abstract), 127
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Models in fracture healing: report from the Reisensburg Workshop September 1999, 440
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Fractures, hematoma
Is human fracture hematoma inherently angiogenic? (abstract), 126
Fractures, hip
Biomechanical evaluation of the dynamic hip screw with two- and four-hole side plates, 318
Changes in bone mineral density six years following a hip fracture: a prospective longitudinal study (abstract), 136
Effect of previous cerebrovascular accident on outcome after hip fracture, 329
A functional recovery score for elderly hip fracture patients: I. Development, 20
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Joint proprioception in the elderly with and without hip fracture, 542
Percutaneous compression plating of intertrochanteric hip fractures, 490
Fractures, humeral
Assessment of outcome following intraarticular distal humerus fractures using the DASH form (abstract), 118
The epidemiology and outcome of proximal humeral fractures (abstract), 118
Fixation of three-part proximal humeral fractures: a biomechanical evaluation, 36
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442
Fractures, humeral shaft
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Radial nerve entrapment by the lateral intermuscular septum after trauma, 65
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162
Fractures, iliac wing
Comminuted fractures of the iliac wing, 270
Fractures, intertrochanteric-subtrochanteric
Intertrochanteric-subtrochanteric fractures: treatment with the long gamma nail, 324
Fractures, intraarticular
Bone strain changes associated with intraarticular fractures of the proximal and distal tibia (abstract), 139
Fractures, lateral compression pelvic
Distraction external fixation in lateral compression pelvic fractures, 475
Fractures, loads
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Fractures, long bone
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74, 223
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Fractures, medial malleolus
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
Fractures, multiple
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514

Fractures, nonunion
Nonunion in a fracture of the proximal phalanx of the thumb (case report), 219
Fractures, olecranon
Fractures of the olecranon: a biomechanical study of the joint stresses comparing two methods of treatment (abstract), 119
Fractures, open reduction
Nonunion following ORIF of radial head fractures (abstract), 119
Fractures, open wound
Prospective, randomized, double-blind study comparing single-agent antibiotic therapy, ciprofloxacin, to combination antibiotic therapy in open fracture wounds, 529
Fractures, os calcis
The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Fractures, osteoporotic
Sheep model for fracture treatment in osteoporotic bone: a pilot study about different induction regimens, 559
Fractures, pathological femoral
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Fractures, patterns
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
Fractures, pediatric
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73
Fractures, pelvic
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Pelvic fractures in pregnant multiple trauma patients, 238
Posterior locked lateral compression injury of the pelvis: report of three cases, 107
Fractures, posterior wall acetabular
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
Fractures, radial head, 354
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Nonunion following ORIF of radial head fractures (abstract), 119
Fractures, radiographic assessment
Radiographic fracture assessments: which ones can we reliably make?, 379
Fractures, radius
The importance of algoneurodystrophy in different treatment options of distal radial fractures (abstract), 122
Rotational malreduction of distal radius fractures as seen on plain films: a cadaver model (abstract), 122
Fractures, reverse obliquity
Reverse obliquity fractures of the proximal femur (abstract), 137
Fractures, Salter-Harris I
Flexion-type Salter-Harris I injury of the proximal tibial epiphysis (case report), 302
Fractures, Salter-Harris II
Salter-Harris Type II fractures of the capital femoral epiphysis (case report), 510
Fractures, scaphoid
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299
Fractures, Schatzker Type VI
Treatment of complex (Schatzker Type VI) fractures of the tibial plateau with circular wire external fixation: retrospective case review, 339
Fractures, suicidal jumper
Suicidal jumpers fracture: analysis of treatment in 15 patients (abstract), 124
Fractures, supracondylar
Pediatric supracondylar humerus fractures: the anterior approach (abstract), 123
Prospective clinical trial of the less invasive stabilization (L.I.S.S.) for supracondylar femur fractures (abstract), 133
Fractures, talus
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 223
Fractures, tibial
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Low-intensity ultrasound and healing of intramedullary fixed tibial fractures (abstract), 154
Muscle recovery after tibial diaphyseal fracture (abstract), 152
Tibial tubercle-medial malleolar distance in determining tibial nail length, 345
Fractures, tibial plateau
High-grade tibial plateau fractures: a matched cohort study comparing internal fixation and ring fixator methods (abstract), 153
Radiographic fracture assessments: which ones can we reliably make?, 379
Treatment of complex (Schatzker Type VI) fractures of the tibial plateau with circular wire external fixation: retrospective case review, 339
Treatment of tibial plateau fractures with small fragment internal fixation: a preliminary report, 467
Fractures, tibial shaft
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
Isolated tibial shaft fracture, 306
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
Tibial shaft fractures with an associated infrapopliteal arterial injury: a survey of vascular surgeons' opinions on the need for vascular repair, 194
Treatment of closed tibia shaft fractures: a survey from the 1997 Orthopaedic Trauma Association and Osteosynthesis International - Gerhard Küntscher Kreis meeting, 577
Fractures, tibiocalcaneal
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 74
Fractures, transcervical
Delayed separation of the capital femoral epiphysis after an ipsilateral transcervical fracture of the femoral neck (case reports), 446
Fractures, treatment
Operative versus conservative treatment of fractures of the thoracolumbar spine (abstract), 452
Fractures, union
A prospective randomized trial comparing reamed and unreamed intramedullary nailing: an analysis of rates of union (abstract), 131
Fractures, unstable
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Prediction of instability of fractures of the distal radius (abstract), 121
Fractures, upper extremity
Fractures of the upper extremity in restrained car drivers (abstract), 120
Fractures, Weber C
Evaluation of the syndesmotic screw in low Weber C ankle fractures, 359
Fragments, blast injury
Field hospital treatment of blast wounds of the musculoskeletal system during the Yugoslav civil war, 278
Friction neuritis
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Functional assessment
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Functional brace treatment
Isolated tibial shaft fracture, 306
Functional outcome
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Outcome validation of the AO/OTA fracture classification system, 534
Unipolar *vs.* bipolar prosthesis: a prospective evaluation of long-term functional outcome following femoral neck fracture (abstract), 135
Functional recovery
Effect of previous cerebrovascular accident on outcome after hip fracture, 329
A functional recovery score for elderly hip fracture patients: I. Development, 20
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26

Galeazzi fracture-dislocation
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Gamma nail
Intertrochanteric-subtrochanteric fractures: treatment with the long gamma nail, 324
Gender
Age, gender, work capability and Worker's Compensation in patients with displaced intraarticular calcaneal fractures (abstract), 141
Gene therapy
Feasibility of a gene therapy approach for the treatment of an atrophic non-union: an experimental study in rabbits (abstract), 128
Gerdy's tubercle osteotomy
Gerdy's tubercle osteotomy for the treatment of coronal fractures of the lateral femoral condyle, 214
Gluteal artery, superior
Superior gluteal artery in the extended iliofemoral approach, 259
Grafts, bone
Bone graft in the operative treatment of displaced intra-articular calcaneal fractures: is it helpful? (abstract), 142
Reconstruction of post-traumatic long bone defect with vascularized bone graft (abstract), 138
Greater tuberosity, fracture-dislocation
Nerve injury after greater tuberosity fracture dislocation (abstract), 117
Growth factors
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Growth hormone
Recombinant growth hormone accelerates the healing of segmental bone defects: an animal study in minipigs (abstract), 129

Hand injury
Treatment of complex hand injuries (abstract), 452
Hand injury, pediatric
Major pediatric hand trauma associated with fireworks, 426
Head injury, fracture fixation
Timing of femur fracture fixation in patients with head injuries (abstract), 125
Healing
Models in fracture healing: report from the Reisensburg Workshop September 1999, 440
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48

Healing, delayed
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Health care workers, infections
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140
Hematoma
Is human fracture hematoma inherently angiogenic? (abstract), 126
Hemiarthroplasty
Cardiac output during hip hemiarthroplasty: a prospective, controlled trial of cemented and uncemented designs (abstract), 136
Joint proprioception in the elderly with and without hip fracture, 542
Hemilithotomy position
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157
Hemorrhage, severe
Control of severe hemorrhage in multiply injured patients with pelvic ring disruption using C-clamp and pelvic packing (abstract), 147
High-energy trauma
Characterization of patients with high-energy lower extremity trauma, 455
Hinged fixation
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442
Hip, fracture
Biomechanical evaluation of the dynamic hip screw with two- and four-hole side plates, 318
Changes in bone mineral density six years following a hip fracture: a prospective longitudinal study (abstract), 136
Effect of previous cerebrovascular accident on outcome after hip fracture, 329
A functional recovery score for elderly hip fracture patients: I. Development, 20
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Joint proprioception in the elderly with and without hip fracture, 542
Percutaneous compression plating of intertrochanteric hip fractures, 490
Hip, fracture-dislocation
Internal fixation *vs.* primary total hip arthroplasty for dislocated femoral neck fractures: a prospective randomized study (abstract), 134
Hip, function
Nonoperative treatment of acetabular fractures, 589
Hip, lateralized
Pathomorphologic characteristics of posttraumatic acetabular dysplasia, 483
Hip, position
Intraneural sciatic nerve pressures relative to the position of the hip and knee: a human cadaveric study, 255
Hip hemiarthroplasty
Cardiac output during hip hemiarthroplasty: a prospective, controlled trial of cemented and uncemented designs (abstract), 136
Hip screw, dynamic
Biomechanical evaluation of the dynamic hip screw with two- and four-hole side plates, 318
Histology
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
History
Hyphenated-history: the Kocher-Langenbeck surgical approach, 60
Hoffa fracture
Gerdy's tubercle osteotomy for the treatment of coronal fractures of the lateral femoral condyle, 214
Nonunion of a Hoffa fracture in a child (case report), 519
Hospital for Special Surgery scale
Possible influence of knee scores (abstract), 224
Human fibroblast cells
Effect of commonly used locally applied antibiotics on human fibroblast, lymphocyte-like, and osteoblast-like cells in-vitro (abstract), 128
Humeral shaft, fractures
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Radial nerve entrapment by the lateral intermuscular septum after trauma, 65
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Humerus, displaced fracture
Displaced supracondylar humeral fractures in children: does the timing of surgery make a difference? (abstract), 123
Humerus, fractures
Assessment of outcome following intraarticular distal humerus fractures using the DASH form (abstract), 118
The epidemiology and outcome of proximal humeral fractures (abstract), 118
Fixation of three-part proximal humeral fractures: a biomechanical evaluation, 36
Pediatric supracondylar humerus fractures: the anterior approach (abstract), 123
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442
Humerus, nailing
Somatosensory evoked potential monitoring during closed humeral nailing: a preliminary report, 167
Unreamed antegrade interlocked humeral nailing (abstract), 453
Hybrid external fixation
Tension wire position for hybrid external fixation of the proximal tibia, 502
Hypertrophic pubic ramus nonunion
Symptomatic hypertrophic pubic ramus nonunion treated with a retrograde medullary screw (case report), 582

Iatrogenic nerve injury
Iatrogenic nerve injury during acetabular fracture surgery: a comparison of monitored and unmonitored patients (abstract), 145
IGF-1
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Iliac wing, fractures
Comminuted fractures of the iliac wing, 270
Iliofemoral approach
Operative treatment of complex acetabular fractures through the modified extensile iliofemoral approach (Maryland) (abstract), 223
Superior gluteal artery in the extended iliofemoral approach, 259
Iliosacral implants
Evaluation of intraoperative nerve monitoring during the insertion of iliosacral implants in an animal model (abstract), 146
Iliosacral screws
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Iliosacral screws, placement
The effect of sacral malreduction on the safe placement of iliosacral screws (abstract), 148
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Safe placement of S_1 and S_2 iliosacral screws: the "vestibule" concept, 264
Ilizarov bone transport
Ilizarov bone transport treatment for tibial defects, 76
Ilizarov fixator
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Ilizarov technique
Correction of complex post-traumatic periarticular tibial deformities with bone deficit utilizing the Ilizarov technique (abstract), 138
Immobilization
Cast immobilisation or vacuum stabilizing system? (abstract), 451
Impairment rating
Outcome validation of the AO/OTA fracture classification system, 534
Treatment of closed tibia shaft fractures: a survey from the 1997 Orthopaedic Trauma Association and Osteosynthesis International - Gerhard Küntscher Kreis meeting, 577
Implants
Antegrade *vs.* retrograde femoral nailing: a comparison of canal-sized implants (abstract), 132
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Implants, biodegradable
Biodegradable implants for fracture fixation, state of the art (abstract), 451
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Implants, biomechanics
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Implants, failure
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Implants, iliosacral
Evaluation of intraoperative nerve monitoring during the insertion of iliosacral implants in an animal model (abstract), 146
Infant femur, fracture
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Infection, long bone
The use of an antibiotic-impregnated, bioabsorbable bone substitute in the treatment of infected long bone defects: results of a prospective trial (abstract), 137
Inflammatory system
The effect of femoral nailing on the inflammatory system: is there a second hit? (abstract), 125
Infrapopliteal arterial injury, repair
Tibial shaft fractures with an associated infrapopliteal arterial injury: a survey of vascular surgeons' opinions on the need for vascular repair, 194
Insertion force
Insertion force measurement of cervical traction tongs: a biomechanical study, 505
Instability
Comminuted fractures of the iliac wing, 270
Prediction of instability of fractures of the distal radius (abstract), 121
Use of a hinged external fixator for elbow instability after severe distal humeral fractures (case reports), 442
Interlocked nailing
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Unreamed antegrade interlocked humeral nailing (abstract), 453
Interlocking nails
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Setscrew distal locking for intramedullary nails: a biomechanical study, 414

Interlocking spiral blade
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Internal fixation
The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
High-grade tibial plateau fractures: a matched cohort study comparing internal fixation and ring fixator methods (abstract), 153
Internal fixation *vs.* primary total hip arthroplasty for dislocated femoral neck fractures: a prospective randomized study (abstract), 134
Nonunion following ORIF of radial head fractures (abstract), 119
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162
Internal fixation, failure
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
Internal fixation, limited
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Internal fixation, open reduction
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Internal fixation, small fragment
Treatment of tibial plateau fractures with small fragment internal fixation: a preliminary report, 467
International Knee Documentation Committee scoring system
Possible influence of knee scores (abstract), 224
Interobserver reliability
Radiographic fracture assessments: which ones can we reliably make?, 379
Interobserver variability
Magnetic resonance venography: interobserver variability in the identification of pelvic venous thrombosis (abstract), 147
Intertrochanteric fracture, fixation
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Intertrochanteric-subtrochanteric fractures
Intertrochanteric-subtrochanteric fractures: treatment with the long gamma nail, 324
Intraarticular fractures
Assessment of outcome following intraarticular distal humerus fractures using the DASH form (abstract), 118
Bone strain changes associated with intraarticular fractures of the proximal and distal tibia (abstract), 139
Intraarticular fractures, calcaneal
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
Intraarticular fractures, displaced
Age, gender, work capability and Worker's Compensation in patients with displaced intra-articular calcaneal fractures (abstract), 141
Bone graft in the operative treatment of displaced intra-articular calcaneal fractures: is it helpful? (abstract), 142
Intraarticular fractures, femur
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Intraarticular implants
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Intramedullary fixation
Low-intensity ultrasound and healing of intramedullary fixed tibial fractures (abstract), 154
Pediatric femur fracture, 449
Intramedullary nailing
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Dislodgement of the locking cap from the AO unreamed intramedullary nail: a case report, 105
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
Isolated tibial shaft fracture, 306
Multicenter trials (letter), 376
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
A prospective randomized trial comparing reamed and unreamed intramedullary nailing: an analysis of rates of union (abstract), 131
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Treatment of femoral shaft fracture using unreamed interlocked nails, 10
Intramedullary nailing, complications
The clinical relevance of the rotational deformity after femoral shaft fracture treated with intramedullary nailing (abstract), 133
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
Intramedullary nailing, exchange reamed
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Intramedullary nailing, femoral
Prospective comparison of retrograde and antegrade femoral intramedullary nailing, 496
Reamed versus nonreamed anterograde femoral nailing, 15
Intramedullary nailing, retrograde
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Intramedullary nails
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Intramedullary reamer
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Intraoperative nerve monitoring
Evaluation of intraoperative nerve monitoring during the insertion of iliosacral implants in an animal model (abstract), 146
Irreducible lateral dislocation
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517

Joint proprioception
Joint proprioception in the elderly with and without hip fracture, 542
Joint stress
Fractures of the olecranon: a biomechanical study of the joint stresses comparing two methods of treatment (abstract), 119

K-wires
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
Kinematics, elbow
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41
Knee
Possible influence of knee scores (abstract), 224
Knee, dislocation
Comparison of magnetic resonance imaging with operative findings in acute traumatic dislocations of the adult knee, 183
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517
Ultra-low velocity knee dislocations (abstract), 153
Knee, fracture
Treatment of tibial plateau fractures with small fragment internal fixation: a preliminary report, 467
Knee, implants
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Knee, irreducible dislocation
A rare case of irreducible knee dislocation in a seventy-three-year-old male, 70
Knee, position
Intraneural sciatic nerve pressures relative to the position of the hip and knee: a human cadaveric study, 255
Knee scoring systems
Possible influence of knee scores (abstract), 224
Kocher-Langenbeck approach
Hyphenated-history: the Kocher-Langenbeck surgical approach, 60

Lag screws, iliosacral
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Landmine injury
Change in lower extremity morbidity from landmine injury: an analysis of new protective footwear (abstract), 145
Larson score system
Possible influence of knee scores (abstract), 224
Late results
Late results after fracture of the femoral head (abstract), 73
Lateral compression, pelvic
Distraction external fixation in lateral compression pelvic fractures, 475
Lateral intermuscular septum
Radial nerve entrapment by the lateral intermuscular septum after trauma, 65
Limb salvage
Characterization of patients with high-energy lower extremity trauma, 455
Limb shortening
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Lithotomy
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157
Locked pelvic injury
Posterior locked lateral compression injury of the pelvis: report of three cases, 107
Locking cap
Dislodgement of the locking cap from the AO unreamed intramedullary nail: a case report, 105

Long bone, defect
Reconstruction of post-traumatic long bone defect with vascularized bone graft (abstract), 138
Long bone, delayed union
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74, 223
Long bone, fractures
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Outcome validation of the AO/OTA fracture classification system, 534
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Long bone, segmental defect
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
Long-term follow-up
Long-term follow-up of unilateral above-knee amputees (abstract), 140
Long-term outcomes
Unipolar *vs.* bipolar prosthesis: a prospective evaluation of long-term functional outcome following femoral neck fracture (abstract), 135
Longitudinal study
Changes in bone mineral density six years following a hip fracture: a prospective longitudinal study (abstract), 136
Lower extremity
Change in lower extremity morbidity from landmine injury: an analysis of new protective footwear (abstract), 145
Lower extremity, compartment syndrome
Acute noncontact compartment syndrome (case report), 509
Lower extremity, high-energy trauma
Characterization of patients with high-energy lower extremity trauma, 455
Lymphocyte-like cells
Effect of commonly used locally applied antibiotics on human fibroblast, lymphocyte-like, and osteoblast-like cells in-vitro (abstract), 128

Magnetic resonance imaging
Comparison of magnetic resonance imaging with operative findings in acute traumatic dislocations of the adult knee, 183
Magnetic resonance venography
Magnetic resonance venography: interobserver variability in the identification of pelvic venous thrombosis (abstract), 147
Maisonneuve fracture
Treatment of the rupture of the distal tibiofibular syndesmosis with "Engelbrechts syndesmosis hook" (abstract), 73
Malleolar region, defect coverage
The deepithelialized turn-over-flap for defect coverage over the Achilles tendon and the lateral malleolar region (abstract), 453
Malleolus fracture
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420
Malreduction
The effect of sacral malreduction on the safe placement of iliosacral screws (abstract), 148
Rotational malreduction of distal radius fractures as seen on plain films: a cadaver model (abstract), 122
Malunion
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Marshall score system
Possible influence of knee scores (abstract), 224
Mechanical prophylaxis
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Mechanical strength
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Mechanical testing
Biomechanical evaluation of calcium phosphate cement-augmented fixation of unstable intertrochanteric fractures, 386
Biomechanical evaluation of the dynamic hip screw with two- and four-hole side plates, 318
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Insertion force measurement of cervical traction tongs: a biomechanical study, 505
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Medullary screw, retrograde
Symptomatic hypertrophic pubic ramus nonunion treated with a retrograde medullary screw (case report), 582
Medullary tube, multiple fracture
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Meta-analysis
Meta-analysis for orthopaedic traumatic conditions: a lens and a mirror, 1
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Metallosis
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Metastatic lesions
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Minimal invasive techniques
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73
Percutaneous compression plating of intertrochanteric hip fractures, 490
Modular femoral prosthesis
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546
Monitoring, EMG
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Motor vehicle injury
Fractures of the upper extremity in restrained car drivers (abstract), 120
Multicenter trials
Multicenter trials (letter), 376
Multiple organ failure
The effect of femoral nailing on the inflammatory system: is there a second hit? (abstract), 125
Muscle recovery
Muscle recovery after tibial diaphyseal fracture (abstract), 152
Muscular atrophy, forearm
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73
Musculoskeletal blast wounds
Field hospital treatment of blast wounds of the musculoskeletal system during the Yugoslav civil war, 278

Nail, length
Tibial tubercle-medial malleolar distance in determining tibial nail length, 345
Nailing
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101
Nailing, closed interlocking
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Nailing, exchange
Exchange nailing for femoral nonunion (letter), 522
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Nailing, femoral
The effect of femoral nailing on the inflammatory system: is there a second hit? (abstract), 125
Prospective comparison of retrograde and antegrade femoral intramedullary nailing, 496
Nailing, gamma
Intertrochanteric-subtrochanteric fractures: treatment with the long gamma nail, 324
Nailing, humeral
Somatosensory evoked potential monitoring during closed humeral nailing: a preliminary report, 167
Nailing, intramedullary
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
Isolated tibial shaft fracture, 306
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
Prospective comparison of retrograde and antegrade femoral intramedullary nailing, 496
Setscrew distal locking for intramedullary nails: a biomechanical study, 414
Nailing, retrograde
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Retrograde nailing of femoral fractures distal to previous osteosynthesis, 367
Nailing, solid femoral
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Nailing, unreamed
Unreamed antegrade interlocked humeral nailing (abstract), 453
Natural history
The natural history and treatment of open calcaneal fractures (abstract), 141
Nerve entrapment
Radial nerve entrapment by the lateral intermuscular septum after trauma, 65
Nerve injury
Iatrogenic nerve injury during acetabular fracture surgery: a comparison of monitored and unmonitored patients (abstract), 145
Nerve injury after greater tuberosity fracture dislocation (abstract), 117
Nerve injury, peroneal
Bilateral peroneal nerve injuries in a patient with bilateral femur fractures: a case report (case reports), 216
Nerves, intraoperative monitoring
Evaluation of intraoperative nerve monitoring during the insertion of iliosacral implants in an animal model (abstract), 146
Neuropathy
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Nitric oxide
Fracture healing is modulated by nitric oxide (abstract), 127

Non-accidental trauma
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Nonoperative treatment
Nonoperative treatment of acetabular fractures, 589
Nonoperative treatment of fractures of the acetabulum (abstract), 148
Nonunion
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349
Extracorporeal shock wave therapy for delayed union of long bone fractures - preliminary results of a prospective cohort study (abstract), 74
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Feasibility of a gene therapy approach for the treatment of an atrophic non-union: an experimental study in rabbits (abstract), 128
Nonunion following ORIF of radial head fractures (abstract), 119
Nonunion in a fracture of the proximal phalanx of the thumb (case report), 219
Nonunion of a Hoffa fracture in a child (case report), 519
Nonunions treated by pulsed low-intensity ultrasound (abstract), 154
Open reduction and anterior-inferior plating of middle-third fractures and nonunions of the clavicle (abstract), 117
Nonunion, femoral
Exchange nailing for femoral nonunion (letter), 522
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178
Nonunion, long bone fracture
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Nonunion, pubic ramus
Symptomatic hypertrophic pubic ramus nonunion treated with a retrograde medullary screw (case report), 582
Nosocomial infections, trauma center
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140

OA/ASIF evaluation criteria
Evaluation criteria list for trauma outcome: recommended by AO/ASIF, 292
OAK score system
Possible influence of knee scores (abstract), 224
Olecranon fracture
Fractures of the olecranon: a biomechanical study of the joint stresses comparing two methods of treatment (abstract), 119
Open fracture wound, treatment
Prospective, randomized, double-blind study comparing single-agent antibiotic therapy, ciprofloxacin, to combination antibiotic therapy in open fracture wounds, 529
Open reduction
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Open reduction and anterior-inferior plating of middle-third fractures and nonunions of the clavicle (abstract), 117
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
A rare case of irreducible knee dislocation in a seventy-three-year-old male, 70
Open reduction, internal fixation
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Nonunion following ORIF of radial head fractures (abstract), 119
Open reduction, knee
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517
Organ failure
Optimal duration of primary surgery with regards to a "borderline" situation in polytrauma patients (abstract), 74, 223
Orthopaedic Trauma Association
Organization of orthopaedic trauma services: a survey of the Orthopaedic Trauma Association, 433
Orthopaedic traumatic conditions
Meta-analysis for orthopaedic traumatic conditions: a lens and a mirror, 1
Os calcis, fractures
The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Osteoarthritis, knee
Possible influence of knee scores (abstract), 224
Osteoblast-like cells
Effect of commonly used locally applied antibiotics on human fibroblast, lymphocyte-like, and osteoblast-like cells in-vitro (abstract), 128
Osteoblastic function
The influence of different disinfection and sterilisation procedures on osteoblastic function. A comparative in-vitro study (abstract), 453
Osteoconductive biomaterial
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Osteopenia
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86
Osteoporosis
Retrograde nailing of femoral fractures distal to previous osteosynthesis, 367
Sheep model for fracture treatment in osteoporotic bone: a pilot study about different induction regimens, 559
Osteoporosis, management
Commentary, 565
Osteosynthesis
Joint proprioception in the elderly with and without hip fracture, 542
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Plate osteosynthesis (letter), 225
Retrograde nailing of femoral fractures distal to previous osteosynthesis, 367
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299
Osteotomy
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Gerdy's tubercle osteotomy for the treatment of coronal fractures of the lateral femoral condyle, 214
Outcomes
Assessment of outcome following intraarticular distal humerus fractures using the DASH form (abstract), 118
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Characterization of patients with high-energy lower extremity trauma, 455
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230
The deepithelialized turn-over-flap for defect coverage over the Achilles tendon and the lateral malleolar region (abstract), 453
Effect of previous cerebrovascular accident on outcome after hip fracture, 329
The epidemiology and outcome of proximal humeral fractures (abstract), 118
Objective and subjective outcome 2 years after polytrauma: an investigation by the German Trauma Registry (abstract), 126
Outcome validation of the AO/OTA fracture classification system, 534
Outcomes of acute femoral neck fractures in young patients (abstract), 130
Pelvic fractures in pregnant multiple trauma patients, 238
Treatment of closed tibia shaft fractures: a survey from the 1997 Orthopaedic Trauma Association and Osteosynthesis International - Gerhard Küntscher Kreis meeting, 577
Outcomes, functional
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Outcomes, long-term
Unipolar *vs.* bipolar prosthesis: a prospective evaluation of long-term functional outcome following femoral neck fracture (abstract), 135
Outcomes, trauma
Evaluation criteria list for trauma outcome: recommended by AO/ASIF, 292
Evaluation criteria list for trauma outcome (editorial), 291
Ovariectomy
Mechanical strength of fracture callus in osteopenic bone at different phases of healing, 86

Paramedics
Facts about the disaster at Eschede, 287
Patella, dislocation
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517
Pathomorphologic characteristics
Pathomorphologic characteristics of posttraumatic acetabular dysplasia, 483
Pediatric fractures
Displaced supracondylar humeral fractures in children: does the timing of surgery make a difference? (abstract), 123
The epidemiology of accidental and non-accidental femur fractures in children (abstract), 124
Outcomes of acute femoral neck fractures in young patients (abstract), 130
Pediatric femur fracture, 449
Pediatric forearm fractures: indications, technique, and limits of conservative management (abstract), 73
Pediatric supracondylar humerus fractures: the anterior approach (abstract), 123
Pediatric fractures, nonunion
Nonunion of a Hoffa fracture in a child (case report), 519
Pediatric trauma, hand
Major pediatric hand trauma associated with fireworks, 426
Pelvic girdle injury
Injuries of the pelvic girdle in road traffic accidents: a technical and medical analysis (abstract), 451
Pelvic packing
Control of severe hemorrhage in multiply injured patients with pelvic ring disruption using C-clamp and pelvic packing (abstract), 147
Pelvic ring
Pathomorphologic characteristics of posttraumatic acetabular dysplasia, 483
Pelvic ring, disruption
Control of severe hemorrhage in multiply injured patients with pelvic ring disruption using C-clamp and pelvic packing (abstract), 147

Pelvic venous thrombosis
Magnetic resonance venography: interobserver variability in the identification of pelvic venous thrombosis (abstract), 147
Pelvis, compression injury
Distraction external fixation in lateral compression pelvic fractures, 475
Posterior locked lateral compression injury of the pelvis: report of three cases, 107
Pelvis, fractures
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Mechanical DVT prophylaxis in pelvic and acetabular fractures following blunt trauma (abstract), 146
Pelvic fractures in pregnant multiple trauma patients, 238
Percutaneous compression plating
Percutaneous compression plating of intertrochanteric hip fractures, 490
Percutaneous pinning
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Symptomatic hypertrophic pubic ramus nonunion treated with a retrograde medullary screw (case report), 582
Periarticular tibial deformity
Correction of complex post-traumatic periarticular tibial deformities with bone deficit utilizing the Ilizarov technique (abstract), 138
Peroneal nerve injury, bilateral
Bilateral peroneal nerve injuries in a patient with bilateral femur fractures: a case report (case reports), 216
Pertrochanteric femoral fracture
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546
Phalanx, nonunion
Nonunion in a fracture of the proximal phalanx of the thumb (case report), 219
Pin force, measurement
Insertion force measurement of cervical traction tongs: a biomechanical study, 505
Pipkin femoral head fractures, displaced
Biomechanical consequences of excision of displaced Pipkin femoral head fractures (abstract), 149
Plain films
Rotational malreduction of distal radius fractures as seen on plain films: a cadaver model (abstract), 122
Plating
Biomechanical evaluation of the dynamic hip screw with two- and four-hole side plates, 318
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Open reduction and anterior-inferior plating of middle-third fractures and nonunions of the clavicle (abstract), 117
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
Plate osteosynthesis (letter), 225
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162
Plating, percutaneous compression
Percutaneous compression plating of intertrochanteric hip fractures, 490
Poller screws
Poller screws (letter), 454
Polytrauma
Control of severe hemorrhage in multiply injured patients with pelvic ring disruption using C-clamp and pelvic packing (abstract), 147
Epidemiology of the severe multiple trauma - a prospective registration of preclinical and clinical supply (abstract), 453
Fluoroscopic evaluation of the cervical spine in the polytrauma patient (abstract), 124
Multiple fracture of medullary tube during intramedullary nailing of long bone fractures (case report), 514
Objective and subjective outcome 2 years after polytrauma: an investigation by the German Trauma Registry (abstract), 126
Optimal duration of primary surgery with regards to a "borderline" situation in polytrauma patients (abstract), 74, 223
Pelvic fractures in pregnant multiple trauma patients, 238
Porcine model
Biomechanical evaluation of dual-energy X-ray absorptiometry for predicting fracture loads of the infant femur for injury investigation: an in vitro porcine model, 571
Postoperative infection
Evaluation of standard surgical preparation performed on superficial dermal abrasions, 206
Pregnancy
Pelvic fractures in pregnant multiple trauma patients, 238
Primary definitive surgery
Optimal duration of primary surgery with regards to a "borderline" situation in polytrauma patients (abstract), 74
Primate models
Models in fracture healing: report from the Reisensburg Workshop September 1999, 440
Procollagen I C-terminal propeptide
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Procollagen III N-terminal propeptide
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Prophylactic femoral nailing
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394
Proprioception
Joint proprioception in the elderly with and without hip fracture, 542
Prosthesis
Clinical and finite element analysis of a modular femoral prosthesis consisting of a head and stem component in the treatment of pertrochanteric fractures, 546
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Unipolar *vs.* bipolar prosthesis: a prospective evaluation of long-term functional outcome following femoral neck fracture (abstract), 135
Pubic ramus, nonunion
Symptomatic hypertrophic pubic ramus nonunion treated with a retrograde medullary screw (case report), 582
Pullout strength
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420

Rabbit model
Feasibility of a gene therapy approach for the treatment of an atrophic non-union: an experimental study in rabbits (abstract), 128
Radial head, excision
Results of acute excision of the radial head in elbow radial head fracture-dislocations, 354
Radial head, fracture
Fracture of the radial head with associated elbow dislocation: results of treatment using a floating radial head prosthesis, 171
Nonunion following ORIF of radial head fractures (abstract), 119
Radial nerve, monitoring
Somatosensory evoked potential monitoring during closed humeral nailing: a preliminary report, 167
Radial nerve entrapment
Radial nerve entrapment by the lateral intermuscular septum after trauma, 65
Radial nerve palsy
Radial nerve entrapment by the lateral intermuscular septum after trauma, 65
Radiographic assessment
Radiographic fracture assessments: which ones can we reliably make?, 379
Radius, fractures
The importance of algoneurodystrophy in different treatment options of distal radial fractures (abstract), 122
Prediction of instability of fractures of the distal radius (abstract), 121
Rotational malreduction of distal radius fractures as seen on plain films: a cadaver model (abstract), 122
Randomized study
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
Prospective, randomized, double-blind study comparing single-agent antibiotic therapy, ciprofloxacin, to combination antibiotic therapy in open fracture wounds, 529
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
A prospective randomized trial comparing reamed and unreamed intramedullary nailing: an analysis of rates of union (abstract), 131
Randomized prospective study of humeral shaft fracture fixation: intramedullary nails versus plates, 162
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Rating scale
A functional recovery score for elderly hip fracture patients: I. Development, 20
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Reamed intramedullary nails
Failure of exchange reamed intramedullary nails for ununited femoral shaft fractures, 335
Reamed nailing
Reamed versus nonreamed anterograde femoral nailing, 15
Reamed nailing, intramedullary
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
A prospective randomized trial comparing reamed and unreamed intramedullary nailing: an analysis of rates of union (abstract), 131
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Reamer, intramedullary design
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Recombinant growth hormone
Recombinant growth hormone accelerates the healing of segmental bone defects: an animal study in minipigs (abstract), 129
Reconstruction
Reconstruction of post-traumatic long bone defect with vascularized bone graft (abstract), 138
Reduction, arthroscopic assisted
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299
Reduction, closed
Closed reduction and percutaneous pinning for comminuted intra-articular fractures of the calcaneus: preliminary results (abstract), 143
Reduction, open
Clinical failure after posterior wall acetabular fractures: the influence of initial fracture patterns, 230

The difficulties in judgement of follow-up of open reduced and internal fixated fractures of the os calcis. Is a practicable scoring systems existing? (abstract), 452
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517
Open reduction and anterior-inferior plating of middle-third fractures and nonunions of the clavicle (abstract), 117
Open reduction and augmentation of internal fixation with an injectable skeletal cement for the treatment of complex calcaneal fractures, 309
Open reduction and plating *vs.* intramedullary nailing for diaphyseal forearm fractures: a prospective randomized study (abstract), 121
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142
A rare case of irreducible knee dislocation in a seventy-three-year-old male, 70

Reliability
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Radiographic fracture assessments: which ones can we reliably make?, 379

Retinaculum, intact
Irreducible lateral dislocation of patella due to an intact retinaculum (case report), 517

Retrograde nailing
Antegrade *vs.* retrograde femoral nailing: a comparison of canal-sized implants (abstract), 132
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Retrograde nailing of femoral fractures distal to previous osteosynthesis, 367
Retrograde nailing of humeral shaft fractures: a biomechanical study of its effects on the strength of the distal humerus, 101

Retrograde nails
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567
Prospective comparison of retrograde and antegrade femoral intramedullary nailing, 496

Retrograde screws
Symptomatic hypertrophic pubic ramus nonunion treated with a retrograde medullary screw (case report), 582

Ring fixator methods
High-grade tibial plateau fractures: a matched cohort study comparing internal fixation and ring fixator methods (abstract), 153

Rotational deformity
The clinical relevance of the rotational deformity after femoral shaft fracture treated with intramedullary nailing (abstract), 133

Rotational malreduction
Rotational malreduction of distal radius fractures as seen on plain films: a cadaver model (abstract), 122

Russell-Taylor nail
Closed interlocking nailing of humeral shaft fractures with the Russell-Taylor nail, 349

Sacral ala, geometry
Cross-sectional geometry of the sacral ala for safe insertion of iliosacral lag screws: a computed tomography model, 31

Sacral malreduction
The effect of sacral malreduction on the safe placement of iliosacral screws (abstract), 148

Sacroiliac joint
Electromyography monitoring for percutaneous placement of iliosacral screws, 245
Safe placement of S_1 and S_2 iliosacral screws: the "vestibule" concept, 264

Sacrum, screw placement
Safe placement of S_1 and S_2 iliosacral screws: the "vestibule" concept, 264

Salter-Harris i injury
Flexion-type Salter-Harris I injury of the proximal tibial epiphysis (case report), 302

Salter-Harris Type II fractures
Salter-Harris Type II fractures of the capital femoral epiphysis (case report), 510

Scanogram
Tibial tubercle-medial malleolar distance in determining tibial nail length, 345

Scaphoid fracture, displaced
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299

Scapholunate dissociation
Severely displaced scaphoid fracture treated by arthroscopic assisted reduction and osteosynthesis (case report), 299

Schatzker Type VI fractures, treatment
Treatment of complex (Schatzker Type VI) fractures of the tibial plateau with circular wire external fixation: retrospective case review, 339

Sciatic nerve, intraneural pressures
Intraneural sciatic nerve pressures relative to the position of the hip and knee: a human cadaveric study, 255

Sciatic nerve palsy
Compartment syndrome of the thigh with sciatic nerve palsy (abstract), 451

Screw displacement axis
Hinged external fixation of the elbow: optimal axis alignment to minimize motion resistance, 41

Screws
Poller screws (letter), 454

Seat belt injury
Fractures of the upper extremity in restrained car drivers (abstract), 120

Segmental bone defect
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
Recombinant growth hormone accelerates the healing of segmental bone defects: an animal study in minipigs (abstract), 129

Separation injury
Flexion-type Salter-Harris I injury of the proximal tibial epiphysis (case report), 302

Serology
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48

Setscrew distal locking
Setscrew distal locking for intramedullary nails: a biomechanical study, 414

Sheep model
Sheep model for fracture treatment in osteoporotic bone: a pilot study about different induction regimens, 559

Shoulder, fixation
Fixation of three-part proximal humeral fractures: a biomechanical evaluation, 36

Slipped capital femoral epiphysis
Salter-Harris Type II fractures of the capital femoral epiphysis (case report), 510

Small fragment fixation
Evaluation of a new method of small fragment fixation in a medial malleolus fracture model, 420

Smoking
Success of exchange reamed intramedullary nailing for femoral shaft nonunion or delayed union, 178

Soft tissue injury
Acute noncontact compartment syndrome (case report), 509
Comparison of magnetic resonance imaging with operative findings in acute traumatic dislocations of the adult knee, 183

Somatosensory evoked potentials
Somatosensory evoked potential monitoring during closed humeral nailing: a preliminary report, 167

Spine, cervical trauma
Fluoroscopic evaluation of the cervical spine in the polytrauma patient (abstract), 124

Spine, fractures
Operative versus conservative treatment of fractures of the thoracolumbar spine (abstract), 452

Stability
Fixation of three-part proximal humeral fractures: a biomechanical evaluation, 36

Stabilization
Cast immobilisation or vacuum stabilizing system? (abstract), 451
Prospective clinical trial of the less invasive stabilization (L.I.S.S.) for supracondylar femur fractures (abstract), 133
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 74

Stainless steel implants
Biomechanical evaluation of syndesmosis fixation with 3.5- and 4.5-millimeter stainless steel screws (abstract), 144
Effect of intraarticular stainless steel implants on the health of the rabbit knee joint: an experimental study, 567

Statistical analysis
Statistical correctness (editorial), 527
Striving for statistical significance: how important is it? (editorial), 227

Sterilization procedures
The influence of different disinfection and sterilisation procedures on osteoblastic function. A comparative in-vitro study (abstract), 453

Subtalar fusion
Open reduction internal fixation and immediate subtalar fusion for comminuted intra-articular calcaneal fractures: a review of 33 cases (abstract), 142

Subtrochanteric metastasis
Osteosynthesis of metastatic lesions of the proximal femur with a solid femoral nail and interlocking spiral blade inserted without reaming, 394

Suicide
Suicidal jumpers fracture: analysis of treatment in 15 patients (abstract), 124

Supracondylar fractures, femoral
Mechanical comparison of a distal femoral side plate and a retrograde intramedullary nail, 398
Prospective clinical trial of the less invasive stabilization (L.I.S.S.) for supracondylar femur fractures (abstract), 133

Supracondylar fractures, humeral
Displaced supracondylar humeral fractures in children: does the timing of surgery make a difference? (abstract), 123
Pediatric supracondylar humerus fractures: the anterior approach (abstract), 123

Surgeon survey, vascular repair
Tibial shaft fractures with an associated infrapopliteal arterial injury: a survey of vascular surgeons' opinions on the need for vascular repair, 194

Surgery
Bone graft in the operative treatment of displaced intra-articular calcaneal fractures: is it helpful? (abstract), 142
Iatrogenic nerve injury during acetabular fracture surgery: a comparison of monitored and unmonitored patients (abstract), 145
Operative treatment of complex acetabular fractures through the modified extensile iliofemoral approach (Maryland) (abstract), 223
Operative versus conservative treatment of fractures of the thoracolumbar spine (abstract), 452

Surgery, approaches
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Hyphenated-history: the Kocher-Langenbeck surgical approach, 60
Pediatric supracondylar humerus fractures: the anterior approach (abstract), 123

Surgery, complications
Retained broken wound drains: a preventable complication, 212

Surgery, duration
Optimal duration of primary surgery with regards to a "borderline" situation in polytrauma patients (abstract), 74, 223
Surgery, preparation
Evaluation of standard surgical preparation performed on superficial dermal abrasions, 206
Surgery, primary definitive
Optimal duration of primary surgery with regards to a "borderline" situation in polytrauma patients (abstract), 223
Surgery, timing
Displaced supracondylar humeral fractures in children: does the timing of surgery make a difference? (abstract), 123
Evaluation of standard surgical preparation performed on superficial dermal abrasions, 206
Surgical incision
Böhler incision: an extensile anterolateral approach to the foot and ankle, 429
Surgical procedures
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
Perioperative external fixator management during secondary surgical procedures (abstract), 150
Surgical scrub
Evaluation of standard surgical preparation performed on superficial dermal abrasions, 206
Survey, orthopedic trauma service
Organization of orthopaedic trauma services: a survey of the Orthopaedic Trauma Association, 433
Survey, OTA
Treatment of closed tibia shaft fractures: a survey from the 1997 Orthopaedic Trauma Association and Osteosynthesis International - Gerhard Küntscher Kreis meeting, 577
Syndesmosis
Biomechanical evaluation of syndesmosis fixation with 3.5- and 4.5-millimeter stainless steel screws (abstract), 144
Overtightening of the syndesmosis: is it really possible? (abstract), 144
Syndesmosis hook
Treatment of the rupture of the distal tibiofibular syndesmosis with "Engelbrechts syndesmosis hook" (abstract), 73
Syndesmotic injury
Ankle fracture with syndesmotic injury, 113
Syndesmotic screw
Evaluation of the syndesmotic screw in low Weber C ankle fractures, 359

Talar necrosis
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 74, 223
Talus, fractures
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 74
Tardy ulnar tunnel syndrome
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Tegner scoring system
Possible influence of knee scores (abstract), 224
Tension wire, positioning
Tension wire position for hybrid external fixation of the proximal tibia, 502
TGF-β1
The local application of growth factors like IGF-1 and TGF-β1 from a biodegradable poly(D,L-lactide) coating of implants increases fracture healing (abstract), 130
Therapy, late results
Late results after fracture of the femoral head (abstract), 73
Thigh, compartment syndrome
Acute noncontact compartment syndrome (case report), 509
Compartment syndrome of the thigh with sciatic nerve palsy (abstract), 451
Thoracolumbar spine fracture
Operative versus conservative treatment of fractures of the thoracolumbar spine (abstract), 452
Thumb, nonunion
Nonunion in a fracture of the proximal phalanx of the thumb (case report), 219
Tibia, bracing
Tibial bracing (letter), 523
Tibia, defects
Ilizarov bone transport treatment for tibial defects, 76
Tibia, deformities
Correction of complex post-traumatic periarticular tibial deformities with bone deficit utilizing the Ilizarov technique (abstract), 138
Tibia, fixation
Tension wire position for hybrid external fixation of the proximal tibia, 502
Tibia, fracture
Muscle recovery after tibial diaphyseal fracture (abstract), 152
Tibia, fractures
On the behavior of closed tibial fractures: clinical/radiological correlations, 199
Bilateral epiphyseal fractures of the proximal tibia within a six-month interval: a case report (case report), 585
Bone strain changes associated with intraarticular fractures of the proximal and distal tibia (abstract), 139
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
The effect of intramedullary reamer design on cortical bone and blood flow in a canine tibia fracture model (abstract), 151
Low-intensity ultrasound and healing of intramedullary fixed tibial fractures (abstract), 154
Reamed versus nonreamed intramedullary nailing of lower extremity long bone fractures: a systematic overview and meta-analysis, 2
Tibial tubercle-medial malleolar distance in determining tibial nail length, 345
Tibia, healing
Effects of pulsed electromagnetic fields on bone healing in rabbit tibial osteotomy model, 93
Tibia, proximal epiphyseal injury
Flexion-type Salter-Harris I injury of the proximal tibial epiphysis (case report), 302
Tibial nail
Tibial tubercle-medial malleolar distance in determining tibial nail length, 345
Tibial plateau, external fixation
Tension wire position for hybrid external fixation of the proximal tibia, 502
Tibial plateau, fractures
High-grade tibial plateau fractures: a matched cohort study comparing internal fixation and ring fixator methods (abstract), 153
Radiographic fracture assessments: which ones can we reliably make?, 379
Treatment of complex (Schatzker Type VI) fractures of the tibial plateau with circular wire external fixation: retrospective case review, 339
Treatment of tibial plateau fractures with small fragment internal fixation: a preliminary report, 467
Tibial portal placement
Tibial portal placement: the radiographic correlate of the anatomic safe zone (abstract), 150
Tibial shaft, closed fractures
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
Treatment of closed tibia shaft fractures: a survey from the 1997 Orthopaedic Trauma Association and Osteosynthesis International - Gerhard Küntscher Kreis meeting, 577
Tibial shaft, fixation
Effect of surgical approach on fracture healing: comparison of minimal invasive approach (MIS) to conventional open reduction and internal fixation technique (ORIF) in a sheep tibial shaft (abstract), 151
Tibial shaft, fractures
Isolated tibial shaft fracture, 306
Serology of abnormal fracture healing: the role of PIINP, PICP, and BsALP, 48
Tibial shaft fractures with an associated infrapopliteal arterial injury: a survey of vascular surgeons' opinions on the need for vascular repair, 194
Tibial shaft, open fractures
A prospective, randomized study of intramedullary nails inserted with and without reaming for the treatment of open and closed fractures of the tibial shaft, 187
Tibial tubercle-medial malleolar distance
Tibial tubercle-medial malleolar distance in determining tibial nail length, 345
Tibiocalcaneal fusion
Tibiocalcaneal fusion for the treatment of talar necrosis (abstract), 74, 223
Tibiofibular syndesmosis, rupture
Treatment of the rupture of the distal tibiofibular syndesmosis with "Engelbrechts syndesmosis hook" (abstract), 73
Tissue fluid pressure
Intraneural sciatic nerve pressures relative to the position of the hip and knee: a human cadaveric study, 255
Titanium mesh cage
The cylindrical titanium mesh cage for treatment of a long bone segmental defect: description of a new technique and report of two cases, 54
Total hip arthroplasty
Internal fixation *vs.* primary total hip arthroplasty for dislocated femoral neck fractures: a prospective randomized study (abstract), 134
Traction, bilateral
Bilateral peroneal nerve injuries in a patient with bilateral femur fractures: a case report (case reports), 216
Trauma, cervical spine
Fluoroscopic evaluation of the cervical spine in the polytrauma patient (abstract), 124
Trauma, hand
Major pediatric hand trauma associated with fireworks, 426
Trauma, tibial
Correction of complex post-traumatic periarticular tibial deformities with bone deficit utilizing the Ilizarov technique (abstract), 138
Trauma centers, bacterial pathogens
The use of bandage scissors in a trauma center: the presence of bacterial pathogens and blood, and cleaning habits of health care workers (abstract), 140
Trauma outcome
Evaluation criteria list for trauma outcome: recommended by AO/ASIF, 292
Evaluation criteria list for trauma outcome (editorial), 291
Trauma registry
Epidemiology of the severe multiple trauma - a prospective registration of preclinical and clinical supply (abstract), 453
Objective and subjective outcome 2 years after polytrauma: an investigation by the German Trauma Registry (abstract), 126
Trauma services
Organization of orthopaedic trauma services: a survey of the Orthopaedic Trauma Association, 433
Trauma surgery
Civilian catastrophe and wartime surgery: frequently neglected by always threatening aspects of trauma surgery, 277
Traumatic dislocation, atlas-occiput
Atlanto-occipital dislocation: a report of three patients and a review (case report), 370
Traumatology, orthopaedic
Organization of orthopaedic trauma services: a survey of the Orthopaedic Trauma Association, 433

Triradiate cartilage injury
Pathomorphologic characteristics of posttraumatic acetabular dysplasia, 483

Ulnar head
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Ulnar tunnel syndrome
Tardy ulnar tunnel syndrome caused by Galeazzi fracture-dislocation: a neuropathy with a new pathomechanism, 66
Ultrasound, pulsed low-intensity
Low-intensity ultrasound and healing of intramedullary fixed tibial fractures (abstract), 154
Nonunions treated by pulsed low-intensity ultrasound (abstract), 154
Union, rates
A prospective randomized trial comparing reamed and unreamed intramedullary nailing: an analysis of rates of union (abstract), 131
Unreamed nailing
Effect of acute reamed versus unreamed intramedullary nailing on compartment pressure when treating closed tibial shaft fractures: a randomized prospective study, 554
Unreamed nails
Treatment of femoral shaft fracture using unreamed interlocked nails, 10
Upper extremity fracture
Fractures of the upper extremity in restrained car drivers (abstract), 120

Vacuum stabilization
Cast immobilisation or vacuum stabilizing system? (abstract), 451
Validity
A functional recovery score for elderly hip fracture patients: II. Validity and reliability, 26
Vascular surgery
Tibial shaft fractures with an associated infrapopliteal arterial injury: a survey of vascular surgeons' opinions on the need for vascular repair, 194
Vascular trauma
Acute noncontact compartment syndrome (case report), 509
Vascularized bone graft
Reconstruction of post-traumatic long bone defect with vascularized bone graft (abstract), 138
Vehicular accidents
Foot and ankle injury mechanisms in frontal car collisions (abstract), 144
Injuries of the pelvic girdle in road traffic accidents: a technical and medical analysis (abstract), 451
Venography, magnetic resonance
Magnetic resonance venography: interobserver variability in the identification of pelvic venous thrombosis (abstract), 147
Venous thrombosis, pelvic
Magnetic resonance venography: interobserver variability in the identification of pelvic venous thrombosis (abstract), 147
Vestibule, iliosacral screw
Safe placement of S_1 and S_2 iliosacral screws: the "vestibule" concept, 264

Visual Analog Scale
Possible influence of knee scores (abstract), 224

Wartime surgery
Civilian catastrophe and wartime surgery: frequently neglected by always threatening aspects of trauma surgery, 277
Field hospital treatment of blast wounds of the musculoskeletal system during the Yugoslav civil war, 278
Weber fractures
Evaluation of the syndesmotic screw in low Weber C ankle fractures, 359
Treatment of the rupture of the distal tibiofibular syndesmosis with "Engelbrechts syndesmosis hook" (abstract), 73
Well-leg compartment pressures
Well-leg compartment pressures during hemilithotomy position for fracture fixation, 157
Wire fixation, external tensioned
Treatment of comminuted intraarticular distal femur fractures with limited internal and external tensioned wire fixation, 405
Work capability
Age, gender, work capability and Worker's Compensation in patients with displaced intraarticular calcaneal fractures (abstract), 141
Worker's Compensation
Age, gender, work capability and Worker's Compensation in patients with displaced intraarticular calcaneal fractures (abstract), 141
Wound drains, retained broken
Retained broken wound drains: a preventable complication, 212

STATEMENT OF OWNERSHIP MANAGEMENT AND CIRCULATION (Required by 39 U.S.C. 3685) 1. Publication Title: JOURNAL OF ORTHOPAEDIC TRAUMA. 2. Publication no.: 0890-5339. 3. Filing date: 10-01-00. 4. Frequency of issue: 8 times a year. 5. No. of issues published annually: 8; 6. Annual subscription price: $204.00. 7. Complete mailing address of known office of publication: Lippincott Williams & Wilkins, 16522 Hunters Green Parkway, Hagerstown, MD 21740-2116. 8. Complete mailing address of the headquarters of general business offices of the publisher: 530 Walnut Street, Philadelphia, PA 19106. 9. Full names and complete mailing address of publisher, editor, and managing editor: Publisher: Lippincott Williams & Wilkins, Inc., 530 Walnut Street, Philadelphia, PA 19106; Editor: Roy W. Sanders, MD, 4 Columbia Drive, Suite 710, Tampa, FL 33606. Managing Editor: Marie Chesny, Lippincott Williams & Wilkins, 530 Walnut Street, Philadelphia, PA 19106. 10. Owner: Lippincott Williams & Wilkins, 530 Walnut Street, Philadelphia PA 19106; 351 West Camden Street, Baltimore MD 21201; Wolters Kluwer, US, 345 Hudson Street, New York, NY 10014; Wolters Kluwer, nv (owns 100% of stock), Stadouderskade 1, 1054 FS Amsterdam, The Netherlands. 11. Known bondholders, mortgagees, and other security holders owning or holding 1% or more of total amount of bonds, mortgages, or other securities: None. 12. Purpose, function, and nonprofit status: Has not changed during preceding 12 months.13. Publication Name: JOURNAL OF ORTHOPAEDIC TRAUMA. 14. Issue Date for circulation data: Volume 14, Issue 6. 15. Extent and nature of circulation: Average number of copies each issue during preceding 12 months: (a) Total No. copies (Net Press Run), 3,429. (b) Paid and/or requested circulation; (1) Paid/requested outside-county mail subscriptions stated on form 3541. (Include advertiser's proof and exchange copies), 2,577; (2) Paid in-county subscriptions (include advertiser's proof and exchange copies), N/A; (3) Sales through dealers and carriers, street vendors, counter sales, and other non-USPS paid distribution, N/A; (4) Other classes mailed through the USPS, N/A. (c) Total paid and/or requested circulation (sum of 15b (1), (2), (3), and (4), 2,577, (d) Free distribution by mail (samples, complimentary, and other free). (1) Outside-county as stated on form 3541, 137; (2) In county as stated on form 3541, N/A; (3) Other classes mailed through the USPS, N/A. (e) Free distribution outside the mail (carriers or other means), N/A. (f) Total free distribution (sum of 15d and 15e), 137. (g) Total distribution (Sum of 15c and 15f), 2,714. (h) Copies not distributed, 715. (i) Total (sum of 15g and h), 3,429. (j) Percent paid and/or requested circulation (15c divided by 15g times 100). 95%. No. copies of single issue published nearest to filing date: (a) Total no. copies (Net Press Run), 3,200. (b) Paid and/or requested circulation; (1) Paid/requested outside-county mail subscriptions stated on form 3541 (Include advertiser's proof and exchange copies), 2,533; (2) Paid in-county subscriptions (include advertiser's proof and exchange copies), N/A; (3) Sales through dealers and carriers, street vendors, counter sales, and other non-USPS paid distribution, N/A; (4) Other classes mailed through the USPS, N/A. (c) Total paid and/or requested circulation (sum of 15b. (1), (2), (3), and (4), 2,533. (d) Free distribution by mail (samples, complimentary, and other free), (1) Outside-county as stated on form 3541, 148; (2) In-county as stated on form 3541, N/A; (3) Other classes mailed through the USPS, N/A. (e) Free distribution outside the mail (carriers or other means), N/A. (f) Total free distribution (sum of 15d and 15e), 148. (g) Total distribution (Sum of 15c and 15f), 2,681. (h) Copies not distributed, 519. (i) Total (sum of 15g and h), 3,200. (j) Percent paid and/or requested circulation (15c divided by 15g × 100), 94%. 16. This Statement of Ownership will be printed in volume 14, issue 8 of this publication. 17. I certify that the statements made by me above are correct and complete. Michael Wells, *Manager, Periodical Operations.*
